May 2013 to June 2015
	Senior Web Developer - Developed websites and web applications for local and international clients. - Transformed Photoshop layouts into working responsive websites. - Revamped the company website.	December 2012 to May 2013

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Teleperformance

Makati City, Philippines

Technical Support Representative

January to June 2012

- Handled customer concerns via chat and email for Star Wars: The Old Republic™.
- Trained on proper communication protocols for email, chat, and voice

Education

Tertiary Education

University of the Philippines, Open University

<https://www.upou.edu.ph>

Completed coursework towards Bachelor of Education Studies

2018 to 2020

Associate in Arts, Faculty of Education

2009 to 2011

De La Salle – College of Saint Benilde

Manila, Philippines

Completed coursework towards B.S. Information Systems

2007 to 2009

University of the Philippines, Diliman

Quezon City, Philippines

Completed Coursework towards B.S. Computer Science

2004 to 2007

Primary & Secondary

University of the Philippines Integrated School

Quezon City, Philippines

Kindergarten to Grade 10, Graduated with Honors

1994 to 2004

Skills and Achievements

Web Development & Systems Architecture

- Has an excellent understanding of HTML, CSS, and Javascript/Typescript.
- Highly proficient in the PHP web programming language.
- Familiar with SQL syntax and can work with MySQL, SQLite, and MS SQL.
- Adept in working with PHP frameworks, especially Symfony and Laravel.
- Develops and maintains websites using WordPress.
- Familiar with responsive website design and applies current best practices.
- Well-versed in version control systems such as Git and Subversion.
- Knows front-end Javascript frameworks such as Vue, Angular, and React.
- Has working experience using static site builders such as Astro, Hugo, and Nuxt.
- Adapts to front-end CSS frameworks; regularly uses Tailwind, Bootstrap, and Bulma.
- Knows Markdown and able to learn different formatting syntaxes.
- Knows his way with the Unix terminal and can build and maintain web servers.
- Can learn any front-end or back-end framework in a short time frame.
- Has led and managed development teams and is familiar with Agile methodology.
- Uses AI agents such as Claude to speed up development while ensuring generated code is up to standards and compliance.

Programming

- Proficient in Python, Java, C#, C++, C, and Ruby programming languages.
- Knowledgeable in procedural, functional, and SOLID object-oriented programming.
- Develops native Android applications using Kotlin and Android Studio.
- Understands and has experience coding in assembly language.
- Able to learn new programming languages in a reasonable amount of time.
- Can write Bash (Unix), batch (MS-DOS), and PowerShell scripts to automate tasks.
- Writes scripts for ArcGIS to automate tasks including spatial analysis and layouting.
- Able to write custom Scripts and Add-ons using Javascript for Google Sheets used in various applications.
- Develops code modifications (mods) for Unreal Engine and Unity games.

Computer Software/ Hardware

- Adept in using Microsoft Office software specifically Word, Excel, and PowerPoint; and their Google or LibreOffice counterparts.
- Proficient in using image editing including Adobe Photoshop, GIMP, and Krita.
- Knows how to edit videos and has experience using Non-Linear Editors such as Adobe Premier and Da Vinci Resolve.
- Has certification in Geographic Information Systems (GIS) fundamentals and can operate GIS software, namely ArcGIS.
- Uses 3D Modelling Software, specifically Blender, to create and edit meshes, apply materials or textures, do basic skeleton rigging, and basic texture editing.

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Computer Software/ Hardware (Continued)

- Can build desktop computers using custom manufacturer parts.
- Can touch-type; encodes with excellent speed and accuracy.

Communication, Project Management, and Research

- Has outstanding grasp of both English and Filipino Languages.
- Possesses project and personnel management experience and can write project proposals, policies, Gantt charts, and budgets.
- Experienced in using project management tools such as Jira and Trello.
- Has authored, co-authored, proofread, and edited publications and researches.
- Has organized, presented in, and emceed at events, conferences, and seminars.
- Blogs as a hobby; owns and writes a personal food blog.

Conferences and Events

- Organized, presented in, and attended multiple local and international conferences, symposia, colloquia, workshops, and other events, including:
 - **4th International Research Colloquium towards Disaster Risk Transfer (4IRC-DRT)**
 - November 9-10, 2019 · Quezon City Experience (QCX) Theater, Quezon City Circle · [Organizer]
 - **Forum for Local Disaster Risk Reduction and Management Officers of Metro Manila 2019**
 - July 29, 2019 · Philippine Information Agency (PIA) conference room, Quezon City · [Attendee]
 - **Special Graduation Rites for Pioneer MBA-DRM Program Graduates from Quezon City Local Government Scholars**
 - July 19, 2019 · President Manuel L. Quezon Ceremonial Hall, 15th Floor, Main Building, Quezon City Hall · [Emcee and Organizer]
 - **2nd International Training Program (2ITP-2019)**
 - June 20-22, 2019 · City Planning and Development Office (CPDO) Conference Room, 4th Floor, Civic Center D, City Hall Compound, Quezon City · [Organizer]
 - **International Symposium on Disaster Resilience and Sustainable Development**
 - March 7-8, 2019 · Asian Institute of Technology (AIT) Conference Center, Thailand · [Attendee]
 - **5th Philippine Esri Education GIS Conference**
 - May 28 to 29, 2019 · EDSA Shangri-La Hotel, Mandaluyong City · [Resource Speaker]
 - **3rd International Research Symposium (3IRS)**
 - March 23, 2019 · Grand Auditorium, Philippine Heart Center, Quezon City · [Organizer]
 - **EduTECH Philippines 2019**
 - February 20-21, 2019 · SMX Convention Center, Manila · [Attendee]
 - **International Conference Water Science for Impact**
 - October 16-18, 2018 · Wageningen University & Research (WUR) in Wageningen, The Netherlands · [Presenter]
 - **3rd International Research Colloquium (3IRC)**
 - October 13, 2018 · QCX Conference Theatre, Quezon City Circle · [Presenter and Organizer]
 - **APRU-IRIDeS Multi-Hazards Summer School**
 - July 24 to 27, 2018 · Tohoku University, Sendai, Japan · [Attendee]
 - **International Symposium 2018 – Public-Private Trends in Business Management: Understanding Disaster Risk towards Business Continuity**
 - January 27-28, 2018 · QCX Theater, Quezon City Circle · [Organizer]
- Attended the DevCon AngularJS Code Camp 2015 and is among the winners of the mini hackathon.
- Attended multiple DevCon Summits since 2013.
- Participated in the 2005 ACM Intercollegiate Computer Programming Competition at Ateneo University.
- Participated and won several Programming Competitions within the Computer Science department at the University of the Philippines Diliman.

Publications

- Did content improvement, editing, and visualization for “Extreme weather disasters challenges for sustainable development: Innovating a science and policy framework for disaster-resilient and sustainable Quezon City, Philippines” published in Progress in Disaster Science, Volume 5 (January 2020) DOI: 10.1016/j.pdisas.2020.100066
- Authored “Role of GIS in PSBA-Manila DRM Unit” presented during the 5th Philippine

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Publications (Continued)

Esri Education GIS Conference (May 2019)

- Co-authored and edited “Supplementary Document for the GAWAD Kalasag CY 2019 Entry” for PSBA-Manila, which won the NCR Regional Gawad KALASAG Award 2019 for the Higher Education Institutions category (March 2019)
- Co-authored and edited “Enhancing Urban Resilience towards Water Sufficiency during Extreme Weather Disastrous Impact: Sectoral Adaptation Action Plan of Quezon City, Philippines” published as a poster for the International Conference ‘Water Science for Impact’ (October 2018)
- Authored “Personnel Capacity Enhancement of DRM Unit: Lesson Learned from the APRU-IRIDeS Multi-Hazards Summer School” presented during the 3rd International Research Colloquium (October 2018)
- Co-authored and edited “Supplementary Document for the GAWAD Kalasag CY 2018 Entry” for PSBA-Manila, which won the NCR Regional Gawad KALASAG Award 2018 for the Higher Education Institutions category (March 2018)

Other Skills

- Self-taught how to crochet and creates original fashionwear and stuffed toys.
- Has sales experience, particularly on artist conventions, and has sold his original works as a crocheter on:
 - **Patrons of the Arts “Hayop at Halaman”**
· February 2026 · Elements @ Centris, Quezon City
 - **Stickercon Avenue**
· December 2025 · Bonifacio Global City, Taguig City
 - **Patrons of the Arts “Hayop at Halaman”**
· February 2025 · Elements @ Centris, Quezon City
 - **Pokecon 2024**
· September 2024 · Market! Market! Activity Center, Taguig City
 - **Patrons of the Arts “Hayop at Halaman”**
· August 2024 · Elements @ Centris, Quezon City
 - **Patrons of the Arts “Spring Beginnings”**
· January 2024 · Elements @ Centris, Quezon City
 - **Art to Cart 2023**
· October 2023 · Elements @ Centris, Quezon City
 - **Patrons of the Arts Quezon City 2023**
· July 2023 · Elements @ Centris, Quezon City
- Knows basic accounting, product costing/pricing, and risk assessment; and applies the knowledge to maximize potential profitability on the above events as well as on other art markets of his life partner.

Featured Project Portfolio

Under University of the Philippines, Diliman

Dorm.Diliman

Revamping of dormitory applications and management system

<https://dormapplication.upd.edu.ph>

DormApp & DormDB

Role Solo Full-Stack Developer and IT Associate (as Senior Programmer)

- Responsibilities**
- Rewrote old applications to use modern, secure, and long-term supported technologies.
 - Produced a clean, performant, and responsive front-end that caters to all devices.
 - Provided end-user manuals for different end-user roles of the application.
 - Provides active support during dorm applications, slot assignment, and dormer check-in/out.
 - Did set-up, ensures uptime, and provides maintenance to live servers.
 - Ensured security of system and passed University's security verification for public use.
- Main Features**
- Scheduled dormitory applications with scoring system, dormitory preferences, batch slot allocation, and dormer onboarding.
 - Modules for checking, manual slot allocation, application exclusion, and clearance.
 - Recording check-ins/outs, invoicing, and remarking system for dorm management
 - Clean, performant, and responsive front-end that caters to all devices
 - Integration with Computerized Registration System (CRS) API and Scholarships data
 - Administrative interface for data entities such as Colleges, Courses, Regions, Provinces, and

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Dormitories

- Provides dormitory and dormer API for other university systems

Technologies PHP 8.4, Symfony 7.4, Tailwind CSS, Typescript, Stimulus, Nginx

Office of Student Housing Website

Front-end development and maintenance of existing WordPress website

<https://studenthousing.upd.edu.ph>

Role Front-End Developer

- Main Features**
- Facebook integration
 - Links to important pages and informational materials
 - Responsive theme

Technologies WordPress

Freelance Works

Mateship and Bayanihan 2022

Front-end development for new design

<https://mateshipandbayanihan.com/>

Australian Embassy in the Philippines

Role Front-End Developer

- Responsibilities**
- Rewrote existing theme to fit new design using limitations of available front-end framework
 - Provided full static backup of previous layout and final version

- Main Features**
- Dynamic video player module and grid-based navigation
 - Produced a clean, responsive front-end that caters to all devices

Technologies WordPress with Elementor, Vue.js, Javascript, CSS, HTML, Git via github

Taste of Australia

Promotion Microsite for Australian Products in the Philippines

<https://tasteofaustralia.ph/>

Australian Trade and Investment Commission

Role Full-Stack Developer

- Responsibilities**
- Developed a full-functional WordPress Theme with all requested features
 - Wrote complete documentation for the management of the Website
 - Provided analytics
 - Provides managed hosting services
- Main Features**
- Auto-playing video player module using YouTube's Embed API and Intersection Observer API
 - User registration system for access to suppliers' directory
 - Uses modern WordPress standards
 - Easily-managable content in the WordPress administrative dashboard
 - Fast loading and fully-responsive front-end catering to all modern browsers and devices

Technologies PHP 7, WordPress, Bootstrap 5, Vue.js and vanilla Javascript, SASS, Git via github

Stream & Sip Festival

Film festival event page and fixes for existing WordPress site

<https://mateshipandbayanihan.com/events-2/stream-sip-festival/>

Australian Embassy in the Philippines

Role Consulting Developer

- Responsibilities**
- Developed a WordPress plugin for film showing event
 - Produced a fast, clean, responsive front-end for the event page
 - Wrote documentation for currently installed plugins and newly developed plugin
 - Gave consultancy on issues and other matters for existing WordPress website
 - Provided live support and reports during event date
- Main Features**
- Clean solution using modern WordPress standards reusable for future events
 - Dynamic banner slideshow and external links with two different views
 - Easily-managable content in the WordPress administrative dashboard
 - Fast loading and fully-responsive front-end catering to all modern browsers and devices

Technologies PHP 7, WordPress, Vue.js, SASS, Node.js, Git via Github

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Friuli Trattoria

Official website of Friuli Trattoria Italian Restaurant

<https://friulitrattoria.ph>

Role	Designer, Developer, Host, and Social Media Manager
Responsibilities	• Procured and set-up server for web hosting and solution for email • Designed and developed website from ground-up • Manages website and social media contents • Executes necessary auditing and maintenance
Main Features	• Fast and secure static-generated website that caters to all modern browsers and devices • Highly responsive with elegant transitions • Support for multiple branches and custom links • Continuous deployment for new features and content changes
Technologies	Nuxt.js, Vue.js 2, Node.js, Webpack, SASS, Bash, Git via Github

Custom WordPress Themes and Plugins

WordPress themes and plugins developed for various clients

Samples	Film Festival Event Shortcode (Est. 2021) https://github.com/Inggo/wp-mbfilmfest

	Customized Theme for Cura Property (Est. 2015) https://github.com/Inggo/theme-cura
	Belle Vue Coaches Online integration (Est. 2015) https://github.com/Inggo/cmo-wordpress-plugin

Under PSBA-Manila

Official Website

Revamp of official school website from obsolete website builder to WordPress

<http://psba.edu>

Role	Designer, Developer, and Content Manager
Responsibilities	• Overhauled old website into new WordPress website • Configured webserver to properly accommodate new technologies • Designed website from ground-up • Coded theme for WordPress that the website uses • Managed website contents • Assured product quality and timely delivery
Main Features	• Overhaul from slow, tacky, antiquated site to a fully-responsive, fast, and modern one • Bespoke mobile-first and responsive WordPress theme to match School colors • Easily-editable custom post types for various dynamic content
Technologies	WordPress, Bootstrap, jQuery, HTML, Git via Github

DRM Unit Website

Statically-generated informational website for the school's Disaster Risk Management (DRM) Unit

<http://drm.psba.edu>

Role	Designer, Developer, and Content Manager
Responsibilities	• Designed and developed website from ground-up • Managed website contents • Authored some website contents • Assured product quality and timely delivery
Main Features	• Fast, secure, and simple fully-responsive website that caters to all browsers and devices • Front-end to match official school website • Support for dynamic content including papers, banners, events, services, and personnel • Automated build deployment
Technologies	Nuxt.js, Bootstrap, Vue.js, jQuery, Node.js, Webpack, SASS, HTML, Git via Github

Ramon Iñigo M. Espinosa

Senior Full-Stack Web Developer · <https://inggo.dev> · inggo@pm.me · +63 906 5558311

Online Public Access Catalog

Library database browser-based application

<http://psba.edu/opac>

- Role** Designer and Developer
- Responsibilities**
- Designed and developed application from ground-up
 - Coordinated with school library for database contents
 - Researched and architected search engine that application uses
 - Assured product quality and timely delivery
- Main Features**
- Fast, secure, and simple fully-responsive website that caters to all browsers and devices
 - Offline searching via Lunr
 - Design to match school colors
- Technologies** Vue.js, Node.js, Webpack, Lunr, SASS, HTML, Git via Github
-

E-learning System

Online learning system powered by Moodle

<http://psbaelearning.psba.edu>

- Role** Manager and Developer
- Responsibilities**
- Trained faculty on E-learning system usage
 - Enrolled faculty and students into the system
 - Set up online courses for every school term
 - Uploaded and managed contents of courses upon faculty request
 - Managed announcements and other system-related communications
 - Improved, secured, and updated system with available best technology and practices
- Main Features**
- Moodle-powered online learning platform
 - Semi-automated course setup and user enrollment using Excel and Python scripts
 - Improved Moodle theme applying school colors and mobile-first responsive design
- Technologies** Moodle, PHP 5-7, MySQL, Javascript, Python, HTML, CSS
-

Imperial Dunes

Official website of Imperial Dunes

<https://imperialdunes.org>

- Role** Designer, Developer, and Host
- Responsibilities**
- Designed company logo
 - Procured and set-up domain and web hosting
 - Designed and developed website from ground-up
- Main Features**
- Fast, clean, and simple static-generated website that caters to all browsers and devices
 - Support for dynamic contents; including services, projects, and people
 - Smooth scrolling
 - Automated Bash scripts for deployment
- Technologies** Bootstrap, Nuxt.js, Vue.js 2, Node.js, Webpack, SASS, Bash, Git via Github
-

Under Hampton Peak

inHomePortal.com

Official company website

<https://inhomeportal.com>

- Role** Lead Developer
- Responsibilities**
- Led a small development team taking on a lead development role
 - Supervised junior team members on implementation
 - Performed quality assurance
 - Resolved website issues
- Main Features**
- Rapid implementation using elegant Flora theme
 - Fast, sleek, fully-responsive mobile-first design
- Technologies** WordPress, Bootstrap, jQuery, Jira, Git via Beanstalk
